

SUMMER INTERN POSITIONS 2017

Washington, D.C.

The Economic Research Service (ERS) is an economic research agency of the U.S. Department of Agriculture. ERS functions include research, staff analysis, and development of economic and statistical indicators relating to commercial agriculture, food and consumer economics, natural resources and environment, and the rural economy.

Spend the summer in an environment where you can put your skills to work.

Student Trainee (Economics): GS-0199-07/09 (multiple positions)

An excellent opportunity for undergraduate and graduate students to gain valuable research experience by assisting highly-skilled economists and/or social scientists and to work with ERS models and data sets. These positions require individuals with a solid foundation in economic theory and strong quantitative skills; experience with data collection, econometric analysis, data base management and/or mathematical programming and models; and good communications skills. Interns participate in a wide variety of research projects involving agriculture and environment, domestic and international markets, agricultural and trade policy, food safety, diet and nutrition, consumer economics, rural development, and agricultural finance.
