CURRENT RESEARCH TOPICS IN PROGRESS

Paper submitted to the Journal of History of Economic Thoughts and to be revised for resubmission:

"Clashing Analyses of Speculation and the Early Regulation of U.S. Grain Futures Markets," co-authored with John Berdell, has been requested to "Revise and Resubmit" at the Journal of History of Economic Thought, as of October 16, 2016.

Paper near completion:

"Daily Privileges: History, Mechanics, and Pricing Efficiency," co-authored with John Berdell under Driehaus College of Business Summer 2016 Research Grant. This paper is at the final draft stage for submission to the Journal of Futures Markets, a tier 2 journal.

Near-term projects:

"A Revisit of Metallgesellschaft's Hedging Debacle," co-authored with Paul Peterson. Try to understand the weaknesses of margin call risk and its implications to hedgers in a financial crisis.
"The Impact of Housing Crisis on the Performance of Commercial Bank Mortgages," writing a final draft, co-authored with Jin Man Lee and Eun Sun Ahn.
"How well does the Chinese stock index futures (CSI300) perform during the market crash?" co-authored with Long Kang.

Long-term Projects:

"The Regulatory Burden of the Dodd-Frank Act on the Community Banks." The capital requirements for banks had affected community banks the worst, hurting their ability to make loans to small businesses. The call report data are currently being sorted by 10 different sizes of banks for their capital, loans, and deposits.
"The Korea-U.S. Free Trade Agreement 5 Years Later": Data on the trade balance and export and import products between the U.S. and Korea are being collected. The continuing trade surplus of Korea will be scrutinized in relation to the similar free trade agreement between Korea and China.

"The Economic Impact of the Kaesong Industrial Complex (KIC) on the South and North Korean Relationship": Data on the production and transfer volume between South and North Korea are collected. The impact of the shut-down of KIC on the North Korean economy is being analyzed.

"The Impact of the Bank Secrecy Act on the Profitability of Community Banks." The U.S. Treasury data on monetary penalties for the violations of the BSA are being collected for small, medium, and large banks to see how much relative impact was felt by small banks.
