

The Kellstadt CMC team works with our employer partners to create customized engagement opportunities in support of building your brand and making connections at DePaul!

## JOB & INTERNSHIP POSTINGS

Post a full-time job and/or internship opportunity on our career management platform, 12twenty. This is where our MBA and MS students learn about employment opportunities.

## CAMPUS INTERVIEWS

Campus interviews provide an opportunity for companies to interview a diverse pool of students from our MBA and MS programs. Booked through 12twenty, interviews take place both virtually and on-campus on weekdays between the hours of 9am-5pm CT. The CMC team will be on-hand to assure a seamless interview experience for your organization.

## INFO SESSIONS

Host a formal presentation about your organization, highlighting potential career opportunities. Info sessions can take place on our Chicago Loop campus or virtually.

## MEET & GREETs

Meet & Greets are an informal way to get to know our MBA and MS students. These can be strategically scheduled before or after other campus recruiting activities your organization is engaging in. These events can take place on our Chicago Loop campus or virtually.

## SITE VISITS

Also known as Career Treks, this experience invites you to host students in your office - introducing them to your company culture and portfolio of work, inclusive of a tour of your space. Career Treks take place on-site at your organization and can be scheduled on Fridays during the academic year and/or M-F during our intersession (December) and Spring (March) breaks.

## NETWORKING NIGHTS

Connect with current MBA and MS students via these structured, small group networking events.

## STUDENT ORG ENGAGEMENT

The CMC can directly connect you to our student organizations to meet your targeted recruiting needs.

## CLASSROOM ENGAGEMENT

Our faculty are committed to engaging industry partners in their classes. From a singular classroom visit to integrating more fully into our curriculum via participation in a capstone course, we are happy to connect you with our business faculty for both our graduate and undergraduate programs.
